- Cumulative GPA 3.14/4.00

About Me

An aspiring data analyst with a chemical engineering background who wants to be an expert in data analytics and loves to help others to make an impact. Reliable, agile in a fast-paced environment. After two years of working with data in a government institution, I found my passion for the data analytics field. Recently graduated from the highly selective (acceptance rate < 10%) Full-Stack Data Analytics program at RevoU in which I got to learn end-to-end data analytics processes. A confident and passionate person who has an appetite for new challenges and continually learns new skills.

Professional Experience

PT Revolusi Cita Edukasi (RevoU) | Section Manager
May 2022 – December 2022
- Leading and moderating live classes for two batches consisting of 138 students.
- Maintaining the quality of all stakeholders that consist of students, team leads, and instructors to ensure high engagement and optimal learning process while improving class satisfaction rate from 4.75 in the first batch to 4.89 in the following batch
- Preparing regular reports of main performance KPIs and insights in order to provide recommendations and communicate improvement ideas to increase the efficiency and effectiveness of running the program batch

Dinas Lingkungan Hidup Banyuwangi | Waste Management Staff
Jan 2021 – April 2022
- Maintaining smooth collaboration with waste management stakeholders.
- Improving the waste management service system by adding data-driven decisions to estimate the usage of fuel.
- Creating reports on the disbursement of funds for waste management vehicle fuel.
- Monitoring the use of fuel for waste management vehicles to ensure compliance with allocated budgets

UPT Laboratorium Lingkungan Banyuwangi | Chemical Analyst
Jan 2018 – December 2020
- Conducting chemical analysis of wastewater samples to ensure compliance with existing quality standards
- Collecting wastewater samples according to established national standard operating procedures

Projects
